Full Stack Developer

Motivated Full Stack Developer with 1 year of hands-on experience building responsive web applications using the MERN stack. Skilled in React.js, Node.js, Express.js, MongoDB, JavaScript, REST APIs, Git, and GitHub. Currently pursuing a Software Engineering Technician diploma at Centennial College and seeking an entry-level Full Stack Developer role.

Technical Skills

Frontend: JavaScript, HTML5, CSS3, React.js, Responsive Design

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose

Tools: Git, GitHub, VS Code, npm

Strengths: Debugging, Problem Solving, UI Development, API Integration

Experience

Freelance Full Stack Developer

Self-Employed — Etobicoke, Ontario | 2025 – Present

- Developed responsive full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
 - Built reusable React components and user-friendly web interfaces.
 - Created RESTful API routes to connect front-end features with backend services.
 - Designed MongoDB schemas to organize and manage application data.
 - Used Git and GitHub for version control, code management, and project tracking.
 - Tested and debugged application features to improve functionality, usability, and performance.
-

Projects

MERN Stack Web Application

Personal Project — GitHub Portfolio

- Built a full-stack web application using MongoDB, Express.js, React.js, and Node.js.
- Created responsive front-end pages with reusable React components.
- Developed backend API routes for CRUD operations.
- Connected the application to MongoDB and managed source code through GitHub.

Developer Portfolio Website

Personal Project

- Designed and developed a responsive portfolio website to showcase projects, skills, and GitHub work.
 - Organized technical experience and contact information in a clean, professional layout.
 - Built the website with beginner-friendly React structure and reusable page components.
-
